SCHOOL MANAGEMENT SYSTEM

We are proud to introduce one of the most technically advanced software for school management and administration. Our solutions not only reduces the manual work and administration hassles but to keeps the goodwill of your school growing by maintaining a closer relationship with parents, students and staff. We can assure that you will save at least 1000 man hours every year after the implementation of our software

FEATURES OF THE SYSTEM

Complete integration and end to end automation of financial, academic, administrative and management operations.

AUTOMATED APPLICATIONS AND INFORMATION TOOLS

A variety of automated communication channels like web applications, Auto E-Mail, auto SMS and Mobile App that helps improve parent school interactions and keeps parents current and informed on the status of their child.

SIMPLIFYING OPERATIONS WITH AFFORDABLE SOLUTIONS

Simple solutions for various complex operations like timetable generation, exam hall planning which helps improve efficiency and drive down costs by reducing manpower and paper trails.

TIME SAVING AND USER-FRIENDLY SOLUTIONS A SINGLE CLICK AWAY

Single click solutions for many of the time consuming operations like payroll, staff substitution, fee collection etc that saves precious time of the administrative staff.

ACCESS TO INFORMATION ANYTIME, ANYWHERE

Bringing down the communication gap in and out of the institution down to zero by providing user specific information with a single mouse click at anytime and anywhere.

QUICK IMPLEMENTATION AND TURN AROUND TIME

Smooth implementation of operations using minimal effort within the most affordable infrastructure eliminating the need for manual work in your institution.
